

# **BROWNING HARVEY LTD.**

## **EMPLOYMENT OPPORTUNITY – MAINTENANCE EMPLOYEE** **PEPSI BOTTLING FACILITY**

### **THE COMPANY**

Browning Harvey Ltd. is a locally owned and operated bottler of Pepsi Cola Products in Newfoundland and Labrador, and is a recognized local market leader in the brand name Liquid Refreshment Beverage Category in this province.

### **THE ROLE – MAINTENANCE EMPLOYEE**

Browning Harvey Limited is currently looking for a permanent Maintenance employee in our St. John's facility. This role, which is a unionized position with NAPE Local 7003, includes industry leading wages, a progressive vacation schedule, uniform allocations, and group benefits and a pension plan.

Skilled Maintenance Technicians support the production, quality, cost and safety goals of the manufacturing operation and plant facilities. All skilled personnel are responsible for preventive maintenance, process and equipment improvements and effective troubleshooting. These responsibilities include:

- Support production operating objectives by providing plant instrumentation and electrical troubleshooting and maintenance
- Service, troubleshoot, modify and/or repair PLC's, HMI, Drives (AC/DC), controllers, and computer-based control systems, robotics and other electronic equipment.
- Install, maintain, troubleshoot and repair measuring and control devices
- Install, troubleshoot, maintain and repair various types of process control valves
- Troubleshoot and repair hydraulic, pneumatic, and electrical equipment or systems. (Involving circuits, relay logic, wiring, motors, servo drives, etc.)
- Troubleshoot, repair and installation of pumps, gearboxes, and motors
- Working knowledge of P&ID loops, single line diagrams, isometrics, schematics.
- Ability to establish and maintain effective working relationships with employees, contractors, and the public as necessitated by the work

### **THE CANDIDATE**

The successful candidate will have completed their Journeyman Industrial Electrician Certification/Journeyman Instrumentation Certification. A Power Engineering Certification would be considered an asset.

The ideal candidate will have the following competencies:

- Strong electrical and mechanical aptitude
- Familiarity with Allen Bradley PLC's, programming software and variable frequency drives would be considered an asset.
- Familiarity in the operation and maintenance of conveyor systems, pumps, gearboxes, drive systems and industrial automation.
- Knowledge of process equipment such as valves, flow meters, pressure transmitters, and level transmitters would be considered an asset.
- Superior oral and written communication skills
- Ability to work a flexible schedule determined by business requirements
- Proven ability to work with a diverse group in a dynamic environment
- Strong organization and time-management skills

Individuals interested in applying for this position should send a resume to:
